Prospec Systems Limited

Upgrades complete
Manchester United Tickets Promotion
New Service - Vpop3/Vsocks
Increasing Competitiveness

Upgrades Complete

All version 3.2.0 upgrades have been completed successfully and PSL Datatrack is ready for the next generation development.

Manchester United Tickets Promotion

We had a really good time running the draw for Manchester United tickets, which was won by David McIlwain of Technoturn Limited in Hastings.

Good for David, bad news for everyone else who wanted to go.

Steve Fisher of LifeStages
Financial Solutions Ltd.
makes the draw.

New Service - Vpop3/Vsocks

We have now installed a number of vpop3/vsocks servers. This networked email and internet system allows users to have a single, secure entry to the internet and mail, which they can share over their currently installed PSL Datatrack network.

Vpop3 also gives a very efficient internal email system for the user, wherein all linked computers can email any other connected user.

Increasing Competitiveness

Several of our customers have recently been telling us just how their PSL Datatrack systems are giving them a competitive edge in the current economic climate:

Speed and Presentation:

With more sub-contractors chasing fewer customers and overseas competition increasing all the time it is now absolutely essential to get clear, professionally presented quotes out promptly.

Don't underestimate the power of presentation - a scrappy piece of paper, submitted late, doesn't get you the job - even if the price is right!

Keeping Customers Happy:

Once PSL Datatrack's fast, professional quotes have secured new work, the system's many other benefits come into play to help ensure that customer stays happy!

Don't waste valuable resources and labour time keeping track of jobs - PSL Datatrack can do it!

Staying on Top:

Of course, previous investment in 'state of the art' machines should be paying dividends at the moment - but machines are only part of the production story - for everything else you need a system - you need PSL Datatrack to stay on top.

PSL Datatrack users compete and win!

With PSL Datatrack:

- ▶ Quotations are produced rapidly
- ▶ Presentation is always clear and consistent
- ▶ No need for extra administration staff - no worries about who produces the quote letters during holidays or sickness - anyone can print them from PSL Datatrack!

Keep the customer impressed:

- ▶ Acknowledge orders at the click of a menu option.
- ▶ Ensure the right parts are delivered at the right time by using PSL Datatrack's outstanding orders tracking .
- ▶ No need to keep the customer 'hanging on' for information - you know exactly where his job is when he calls.
- ▶ Instant printing of smart despatch notes and labels - no more illegible handwriting!
